EDUCATION

Master of Science in Data Journalism | Columbia University Graduate School of Journalism | New York, N.Y. | expected August 2022
- Earned class honors in Reporting I for a series of stories on New York's restaurant industry during the pandemic
- Data projects include: mental health provider shortage worsening during the pandemic; Asian population declines in Manhattan's Chinatown; Near-earth-objects change over the year; milk tea shop menu scrape and analysis
- Built an interactive map using HTML and Mapbox based on self-scrape data about how audiences from different cultural backgrounds rate movies

Bachelor of Arts in Data Journalism | Journalism School of Communication University of China | Beijing, China | June 2021
- Ranked first in class of data journalism students
- Thesis: Designed questionnaire and data analysis for a project that examined how Chinese students perceive Americans and the U.S.-China relations based on their news sources.

EXPERIENCE

Editor-in-chief (**Sept. 2017 - June 2021), English Official Website**
http://en.cuc.edu.cn of CUC, the only English campus media
- Managed all aspects of editorial production and led a team of 35 student editors, reporters and photographers. Pivoted to remote editing during the pandemic and covered the exchange students studying abroad
- Monitored the column design, operation and update of the entire website

Data News Reporter (Sept. 2017 - Sept. 2018) & Digital Editor (Sept. 2018 – June 2021), Campus Times, the student-run newspaper
- Wrote and visualized data news, at least one project per month
- Assigned and edited more than 10 data projects, including: how people feel about getting back to work; how pandemic affect the movie industry in China; what achievements China made in HIV-AIDS prevention and plastic pollution

Reporter (**Sept. 2017 – Sept. 2018), People Section of News Horizon, the only campus magazine**
- Wrote two profiles that were published on Wechat
